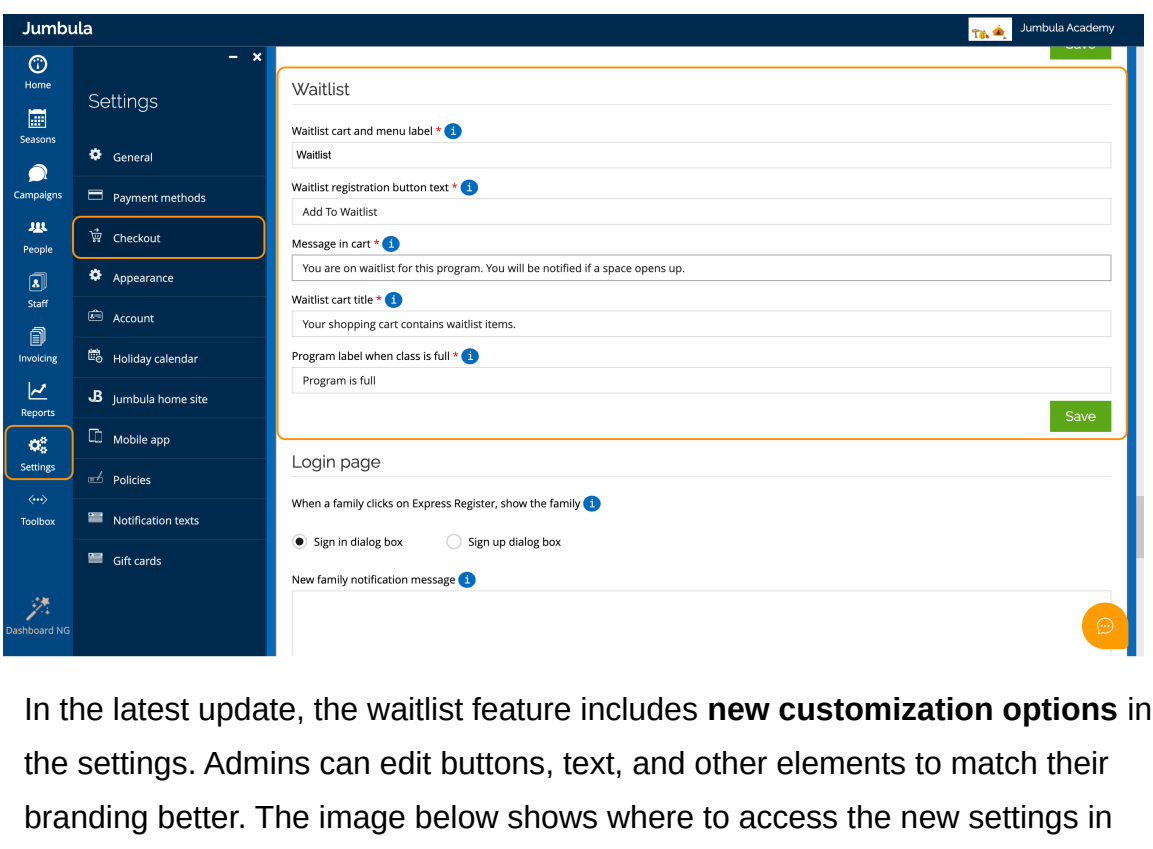
Your Program, Your Story

Recent Updates

Waitlist Enhancements



In the latest update, the waitlist feature includes **new customization options** in the settings. Admins can edit buttons, text, and other elements to match their branding better. The image below shows where to access the new settings in the admin panel and how your customizations will appear to families.

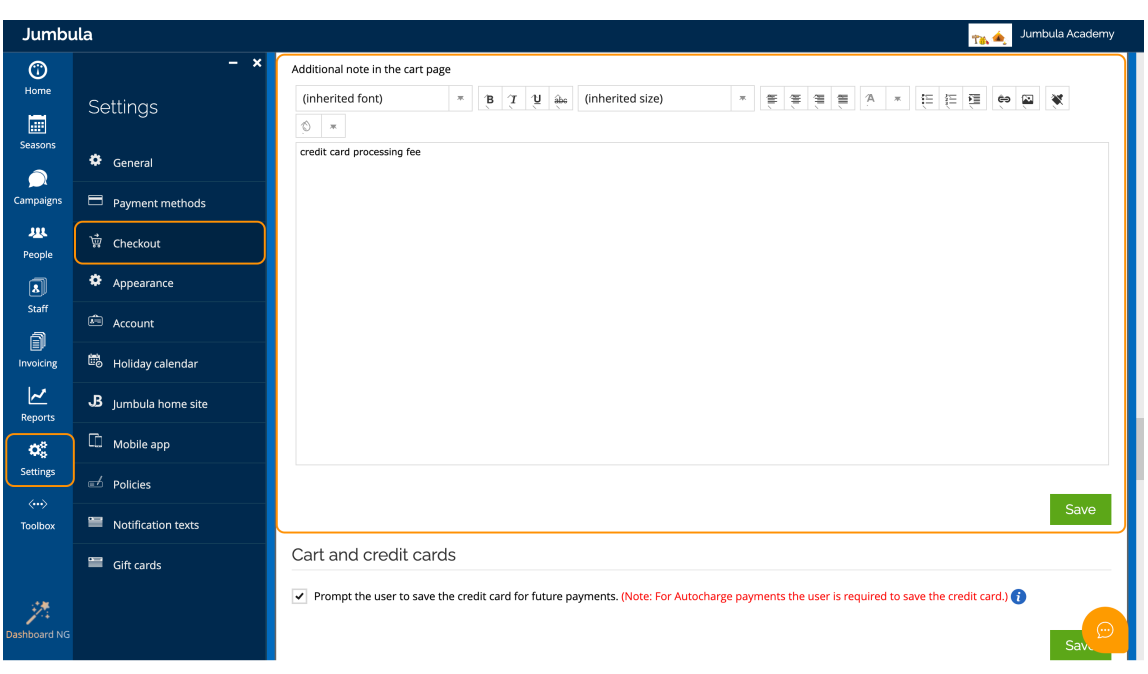
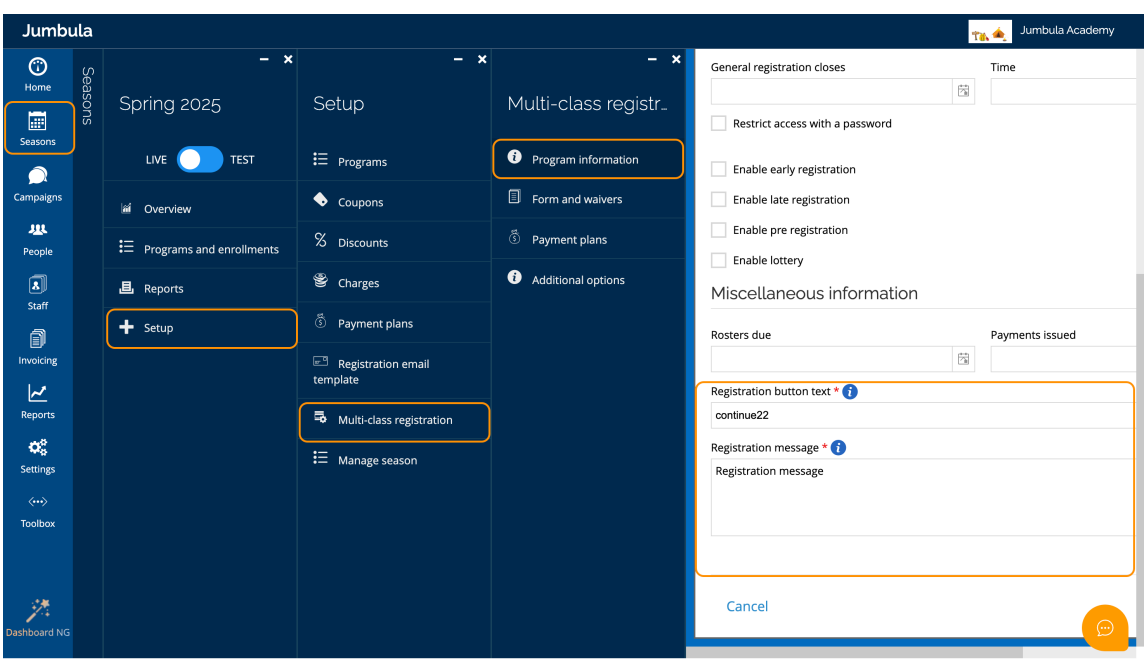
Custom Notes in the Checkout Process

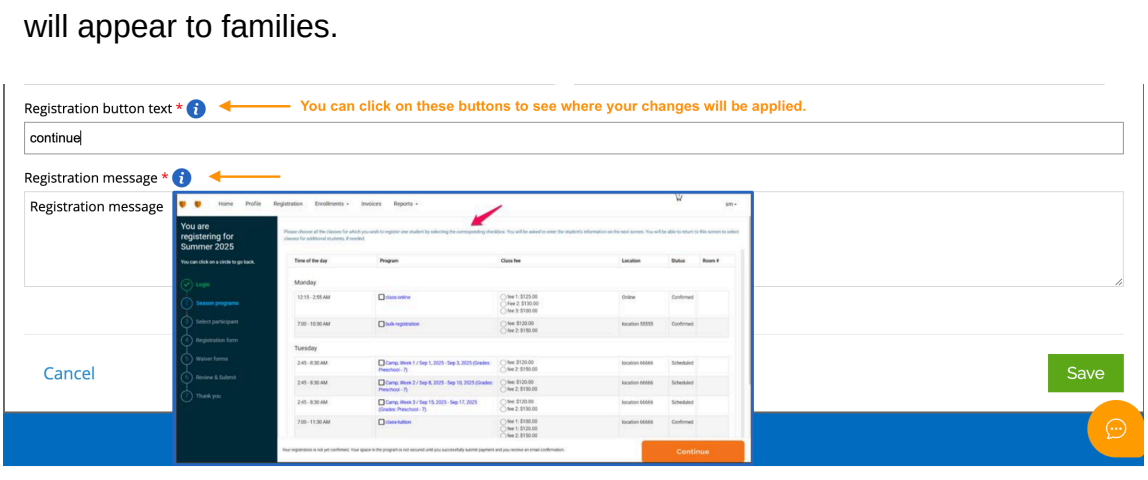


With this update, admins can add custom messages to the cart section of the **checkout page**. This feature allows them to share important information and helpful guidance, ensuring families have all the necessary details as they complete checkout.

Customize Multi-Class Registration



We've added a new enhancement for admins managing multi-class programs. You can now customize the registration button text and add a message to guide users through the process. This update makes it easier for families to understand the steps when selecting and entering student information across multiple classes. The preview below shows precisely how your customizations will appear to families.



CICO for Subscriptions in the Business App

For the **Jumbula Business App**, programs with a subscription type can now be checked in and out directly through the app. This feature is available on both the Android and iOS versions.

Your Program, Your Story

We recently showcased **Prime Youth Learning Services** on our platform, sharing their incredible journey and their positive impact on their community. You can read all about their story here. Now, we're looking for the next organization making waves and creating change. Here's what being featured can do for you:

- Showcase your values and approach to a broader audience
- Build trust and gain more visibility within your community
- Inspire others to take action and make a difference
- Get your business seen on our platform by a broader audience

It's quick and easy — answer a few short questions, and we'll handle the rest!
